15.30 – 17.00 **Working Group I**
Working Group II
Working Group III

Each working group covers all of the following themes:

- The role of higher education in the global knowledge society:
How do systems and institutions of higher education deal with
the challenges of responding to multiple expectations?
- Brain drain – brain gain – brain circulation:
A matter of perspective or different realities? What does it
mean for societies in general and for higher education
systems?
- Cooperation and competition:
Which is winning out or can they coexist in international
higher education?
